

# Transition to the new Hospital

Ready to practice in our new Mission Bernal Campus? Here are some helpful tips for a smooth transition.

## Building Information

The Mission Bernal Campus features shared workspace design.

**Multi-disciplinary workrooms** are conference-style type rooms on patient care floors. These rooms accommodate ten people, a rectangular conference table, a large wall monitor and teleconferencing.

**Inter-disciplinary workrooms** are individual computer workstations in a shared environment. Workstations cannot be “claimed” for individual use. Practice shared workspace etiquette; keep the volume down and clean up when you leave.

**Consult rooms** are designed for providers to have private conversations with patient family member(s) and significant others. Rooms may be locked; requests keys from the charge nurse. Please clean the room after every use.

**Family rooms** are public areas for family members to sit and gather, outside the patient room.

There are two **On-Call rooms** available for ad hoc use, rooms 5361 or 5359 (other call rooms are reserved for specific departments). Contact Support Services at **x77900** (415-600-7900) to reserve a room up to a week in advance. Same day or after-hours requests can be directed to the hospital Operator or Nursing Supervisor.

## Conference Room Reservations

Conference rooms are available on the patient care floors for patient care team use.

Floor conference rooms are dedicated to the floor. Oversight and scheduling of these rooms lie with the Nurse Manager.

In general, these can be used for small classes, inservices, and department meetings.

In addition, there are conference rooms on the first floor (rooms A and B) and second floors (room 2910), available for hospital and public use.

Rooms are equipped with large monitors and teleconferencing. Rooms are locked after hours, by Security, and re-opened by Security. Video displays outside of these rooms provide meeting schedules.

To reserve a room, complete the Conference Room Reservation form, <http://dcpwddb405/virtualems/>.
